Sector:

Commercial vehicles, special vehicle superstructures

Company profile:

ELITE Truck Bodies is a specialist company for commercial vehicle bodies. The company designs and builds workshop vehicles, which are designed and equipped for the specific demands of mobile service & repair. The product range includes:

- Modular vehicle superstructures
- Vehicle loading cranes
- Compressors for installation in mobile service vehicles
- Welding equipment for installation in mobile service vehicles
- Interior fittings for service vehicles
- Accessories
- Fluid service systems for installation in mobile service vehicles (heated and unheated tanks and filling systems for oil, grease, lubricants, coolants, antifreeze)
- Special Tyre handlers for tyres up to 11.3 t and up to 416.4 cm diameter (max. tyre size 57.5/85x57). The Tyre handlers can be mounted on a truck with specialist crane. For bigger tyres the tyre hand is mounted on a forklift or loader.

Qualifications:

ELITE Truck Bodies has been a "Qualified Partner Mercedes-Benz Vans" since August 2006.
